

American Telecommunications Certification Body Inc.  
6731 Whittier Ave, McLean, VA 22101

December 12, 2002

RE: Visonic Ltd.

FCC ID: GSANEXTDUO

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) This application did not include a request for confidentiality. Please confirm that confidentiality is not requested on this application.
- 2) Please provide a photograph or drawing showing the placement of the label on the device.
- 3) The test photographs appear to show that the EUT was positioned on its back for all tests. However, this device will typically be mounted on the wall to generate a field forward. Please confirm if the device has been checked in the upright position as the note on the bottom of page 9/10 of 51 states. If not, please test in an upright position and check data against the data already supplied.
- 4) This device was tested up to 25 GHz, yet the equipment list does not contain any antennas for above 18 GHz. Please explain.
- 5) It is assumed that the EUT obtains its power from host equipment. Therefore compliance with conducted emissions (15.107 & 15.207) needs to be shown. See 15.107 (f) & 15.207 (d) for details. It is also recommended that the conducted emissions meet the future limits (CISPR) that will be required in the next few years. This is because the grant will be issued with one of the following grant notes depending on which set of limits it is shown to have met:

Current Limits

NOTE: The manufacture and importation of this device must cease on July 10, 2005 pursuant to 15.37(j) or 18.123 transition provisions adopted under FCC 02-157 (ET Docket 98-80).

Future Limits (CISPR)

NOTE: This device has shown compliance with the conducted emissions limits in 15.107, 15.207, or 18.307 adopted under FCC 02-157 (ET Docket 98-80) and may be marketed after July 11, 2005 and is not affected by the 15.37(j) or 18.123 transition provisions.

Timothy R. Johnson  
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
