FCC ID: GSANEXTDUO

In reply to e-mail dated December 12, 2002

Dear Mr. Johnson,

Below are the answers to your questions.

1. Visonic confirms that the confidentiality is not required.
2. The label is placed on the bottom of the EUT. Please find an updated Label location description (NextDUO label location.doc), submitted via "Upload for application GSANEXTDUO ATCB000051", Label location folder on December 31, 2002.
3. We confirm that the device was tested in three orthogonal positions (including the upright position), as required by the standard and described in the test procedure.
4. I am very sorry, I did not include the standard gain horn antenna into the Equipment list. Please find the updated test report, submitted via "Upload for application GSANEXTDUO ATCB000051", Test report folder on December 31, 2002.
5. Please find an attachment to the test report, showing compliance with conducted emission requirements. This attachment was submitted via "Upload for application GSANEXTDUO ATCB000051", Test report folder on December 31, 2002.

With great respect,
Valeria
