March 22, 2002

RE: ViewSonic Corporation

FCC ID: GSSVSVPD10000203

I have some confusion on this Application that I hope you can help me solve.

- 1.) Please provide a Block Diagram of the RF module. The diagrams we have only show the host layout.
- 2.) Please provide schematics of the RF module. If I have overlooked it, please indicate where and on what page they begin.
- 3.) The Manual on page 1-3 indicates this can be outfitted with an optional Bluetooth transmitter. This is at odds with the co-location prohibitions currently in effect for TCBs. Please show how the requirements of co-location do not apply if AmericanTCB is to complete this Application.
- 4.) Final page of Manual contains prohibition on co-location. However, until item #3 (above) is resolved, this language may not apply.
- 5.) A Limited Modular Approval (LMA) is being sought for this device. Please provide a separate letter showing how this device complies with the modular approval requirements and what Grant conditions would be appropriate for this LMA..
- 6.) Are there any accessories available or under consideration where this device may be used either on the belt or on a lanyard around the neck or wrist?
- 7.) The External Photographs for this device do not match the drawings in the Manual. Please review and explain.
- 8.) The Internal Photos seem to match the External Photos, but again the form factor of the device shown does not match the drawings in the Manual.

William H. Graff
President and Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
