Subject: SMK Corporation, FCC ID: GT3FC001, Assessment NO.: AN06T5939, Notice#1

Question #1: Based upon FCC 2.925(a)(1), "The FCC Identifier shall be preceded by the term FCC ID in capital letters ..." The proposed FCC ID label format shows the FCC ID is preceded by something else. Please revise the FCC ID label format.  
<answer> revised label is attached.

Question #2: Please revise the test report in the following areas:

- a) Section 5.1 indicates "The EUT is a Bluetooth transceiver headphone", which does not agree with other documents in the filing. Please update.  
<answer> pls see revised report attached.
- b) Since Section 7.1.2 shows EUT passed Hopping Frequency Separation test against two-thirds of 20dB limit, section 7.1.5 has to use 125mW as peak power output limit instead. Please update.  
<answer> pls see revised report attached.
- c) This is for your information. Page 40 shows display line is not placed correctly 20dB below the highest peak of the fundamental in the plot. In future, please place display line correctly.

Best Regards,  
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the

sender.
