The battery for the Wireless Remote Shutter (1 CR2032 lithium battery) is

- 1. To insert the battery, push and slide out the battery door on the remote
- 2. Insert the battery with the polarity "+" facing up.
- 3. Slide the battery door back into place.

PAIRING THE SHUTTER STICK

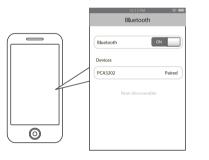

- 1. Slide the power switch on the Wireless Remote Shutter to the ON position. 2. The LED indicator light will flash BLUE.
- 3. Keep the remote and Bluetooth enabled device within 3 feet of each other during the pairing process.
- 4. Set your Bluetooth enabled device to search for Bluetooth devices.

there are no paired devices in range when the Shutter Stick is rned on, it will go into pairing mode automatically. If a paire evice is in range, the Monopod will connect to it automatical.

On an iPhone

• Go to SETTINGS > BLUETOOTH (Make sure Bluetooth is turned ON)

AIRING THE SHUTTER STICK (cont'd)

On a Blackberry

• Go to SETTINGS/OPTIONS > BLUETOOTH Enable BLUETOOTH

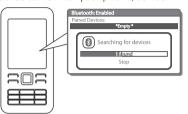

On an Android Phone

• Go to SETTINGS > BLUETOOTH > MENU > Search for devices (Make sure Bluetooth is turned ON)

On other Cell Phones/Devices

• Review the instruction manual that came with your phone/device.

PAIRING THE SHUTTER STICK (cont'd

- 5. When the Bluetooth enabled device finds the Shutter Stick, select "PCA3202" from the list of found devices.
- 6. If required, enter the password 0000, Select OK or Yes to pair the two units. 7. After a successful registration, the LED indicator light will shut off.

NOTE: If you would like to connect the Shutter Stick to another device, you must unpair the Shutter Stick from the currently paired device first. On your device's Bluetooth settings, select "PCA3202", then select "unpair". When the Shutter Stick has been unpaired, turn it OFF and then ON again to enter pairing mode again.

SING THE SHUTTER STIC

1. Attach the phone clamp to the mounting screw by rotating the wheel until it is tight.

2. Put your smartphone in the phone clamp. The spring clamp will keep your smartphone securely in place.

3. Loosen the knob on the base to adjust the angle of the smartphone clamp, then tighten it to secure the clamp to the

4. Enter the camera app on your smartphone.

5. In your smartphone's camera app, switch the picture type to "Selfie" (front facing camera).

NOTE: You can take "selfies," take normal pictures, or record videos. Choose the settings in your smartphone's camera app.

6. Extend the Shutter Stick to the desired

shutter button on the remote. • Use the **[iOS]** button (1) if your smartphone is an iPhone.

 Use the [Android] button (2) if your smartphone uses the Android operating

NOTE: On some Android phones, you may need to use the [iOS] shutter button to take pictures or video. If the [Android] shutter button does not work, then use the [iOS] shutter button.

IMPORTANT: If you are trying to take pictures and you see the volume control bar on your phone, this is because the Shutter Stick uses the volume frequency to take pictures. If this happens, open your smartphone's CAMERA APP settings, select "Volume Button Options" and select "Capture." Now the shutter button will take pictures.

TROUBLESHOOTING

- 1. Make sure the Wireless Remote Shutter is turned ON before beginning
- 2. Keep the Wireless Remote Shutter and Bluetooth enabled device within 3 feet of each other during the pairing process.
- 3. The LED indicator light will flash BLUE
- 4. Check that YOUR device's Bluetooth feature is turned ON.
- 5. Try repeating the pairing process. See "Pairing the Shutter Stick."

- 1. Make sure the Wireless Remote Shutter is turned ON before beginning the
- .The LED indicator light will flash BLUE. 3. The Shutter Stick is now in pairing mode.

1. The Shutter Stick uses the volume frequency to take pictures. If this happens, open your smartphone's **CAMERA APP** settings, select "Volume Button Options" and select "Capture" Now the shutter button will take

ustomer Service (2nd Floor)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no quarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

 Increase the separation between the equipment and receiver. • Connect the equipment into an outlet on a circuit different from that to which the

receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may
