Ref: FCC PCII Certification Request for Avery Dennison embedded radio (FCC ID: GU6-SX10WGPM)

To Whom It May Concern:

We are submitting an application for a class II permissive change to the limited modular approval of the Avery Dennison embedded radio (FCC ID: GU6-SX10WGPM, Original Grant Date: November 17, 2009). The transmitter module itself has not changed. The purpose of this application is to add a new printer host model 9855 as state in previous PCII cover letter.

Additional, to add note that this PCII also include co-location with RFID Transmitter (GU6-9855M5E). Which was evaluated with compliance with Rf exposure requirement.

If you have any questions or concerns, please contact me.

Sincerely,

A handwritten signature in black ink that reads 'James A Bacher'.

James A Bacher
