

REGULATORY COMPLIANCE

Paxar products are designed to be compliant with the rules and regulations in the locations into which they are sold and will be labeled as required. The majority of RF devices are type approved and do not require the user to obtain license or authorization before using the equipment. Any changes or modifications to Paxar equipment not expressly approved by Paxar could void the user authority to operate the equipment.

Radio Frequency Interference Requirements

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference that may cause undesired operations.

Radio Frequency Interference Requirements - Canada

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.

Le présent appareil numérique n'émet pas de bruits radioélectriques dépassant les limites applicables aux appareils numériques de la classe B prescrites dans le Règlement sur le brouillage radioélectrique édicté par le ministère des Communications du Canada.

European Economic Area

The European variant is intended for use throughout the European Economic Area, and is compliant with the R&TTE directives; however, authorization for use restricted as follows:

European standards dictate maximums radiated transmit power of 100 mW EIRP and frequency range 2.400 – 2.4835 GHz.

France, the equipment is to be restricted to the 2.4465 – 2.4835 GHz frequency range.

Belgium outside, the equipment is to be restricted to the 2.460 – 2.4835 GHz frequency range.

Operation in Italy requires a user license.
