Federal Communications Commission
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, MD 21046

To Whom It May Concern:

Our user's manual applies to both the Class A non-wireless and the wireless versions of our printer (Models 9460 and 9460IP, respectively). The AC adapter (Model 9463) that appears in the manual does not meet the requirements of FCC 15.207 for wireless devices such as the 9460IP, though it does meet the requirements of FCC 15.107 for the 9460. Therefore, Paxar will not sell, nor offer for sale, the AC adapter (Model 9463) with the 9460IP wireless printer. The 9460IP will have a barrier added that will prevent the AC Adapter from being used with the 9460IP. It will be internal and glued into place to prevent its removal.

Sincerely,

James Bacher
