6、Support iPad,Iphone,Mac,Windows and Android system etc.It's more convenient for you.

7、Work Environment:Temperature 0-55 ℃,humidity: 20%-80%

8、Built in lithium battery,avoid changing battery frequently.

•Specification
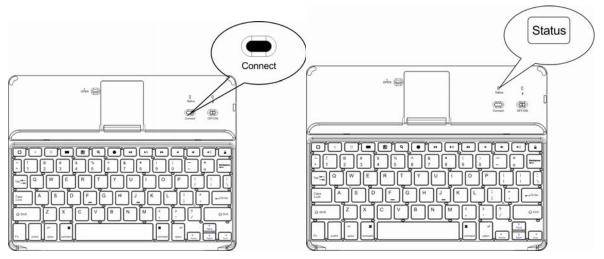

1、executive standard: bluetooth V3.0

2、maximum operating distance: 10 meters

3、modulation mode: 2.4 G straight sequence fh (FHSS)

4、transmit power: Class 2 levels

5、working voltage: 3.7V

6、working current: <2.0 MA

7、standby current: 1.0 MA

8、sleep current55uA

9、charging current: 150MA

10、standby time: 160days

11、theoretical use time: 30days

12、continuous uninterrupted use time: 120hours

13、theoretical charging time: 2.5 hours

14、lithium battery capacity: 1500mAh

15、lithium battery life span: three years

16、the lithium battery type: 4.0 * 20 * 35MM

17、the key dynamics: 60 + 10g

18、buttons life: 5 million times

19、Dimension:L246mm*W191.5mm*H9.6mm

•Bluetooth keyboard installation

1. Keyboard pair with iPad procedure:

This equipment already through the class B digital equipment testing

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help

ICES-003 Statement:

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
