

October 5, 2020

To the attention of:
Federal Communications Commission
Authorization and Evaluation Division

FCC ID: GZ5NVG558HX

To whom it may concern:

ARRIS hereby declares that the product referenced above integrates a modular radio which was previously certified:

Description:	WCDMA/LTE module
Brand Name:	Quectel Wireless Solutions Co.,Ltd
Certification Number:	XMR201901EM12G
Approval Date:	Feb 1, 2019

No hardware design changes are made on the module. The LTE bands Band 7, 30, 38, and 41 are permanently software disabled on this application. It cannot be overridden by end users via any other means. Except the change described above, the software and RF parameters have no change. Pursuant to KDB 996369 D02, the original modular report should be used to represent the compliance with applicable FCC regulations. Radiated testing items are performed on host level to ensure the compliance is maintained.

If you have any questions regarding this authorization, please don't hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "TK", with a long horizontal line extending to the right.
