February 2, 2002

RE: DTC Communications

FCC ID: H25RCT1

I have a few comments on this Application.

- 1.) Please provide a Test Report with this Application. None to date has been received. Please be sure to upload to the AmericanTCB.com website.
- 2.) The Block Diagram lacks sufficient detail as required under Part 2 of the Rules. Please provide a more detailed block diagram.
- 3.) Please upload a clearer Label. In addition, a photograph as to it's location would be helpful
- 4.) Please upload a Users Manual.
- 5.) Internal Photos must always have shields removed. Please supplement your existing photos with a photo of the PCB, shields removed.
- 6.) An External Photo of the back of this device would be helpful.

If you have any questions, please do not hesitate to call.

William H. Graff
President and Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
