DTC Communications Inc. responses to the E-Mail questions from Joe Dichoso

- 1.) DTC does not wish to make the block diagram confidential; only the schematics as originally requested in the confidentiality letter. The marking on the block diagram is erroneous. I have uploaded a block diagram with the confidentiality marking removed.
- 2.) I have uploaded front and rear external photos of the device as required under 2.10033 (c) (11).

Best Regards,
