Dear Martin,

On behalf of DTC Communications Inc. is our response to SAR question 3 of your e-mail dated 11/01/02 requesting additional information for the subject application.

1. The device evaluation and system check were performed on 09/05/02 using probe SN:1387. The 2450MHz dipole used for the system check was calibrated on 10/24/01 using probe SN:1590. The two probes have different conversion factors.

If you have any further questions or comments concerning the above, please contact the undersigned.

Sincerely,

Jonathan Hughes  
General Manager
