

**FCC ID: H38-WT-201**

**No SAR Evaluation required if power is below the following threshold:**

Frequency range (MHz)	Lowest channel (MHz)	Highest channel (MHz)	60/f GHz SAR Limitation <b>mW</b> based on selected frequency
174 -216 MHz	174.100	215.200	344.6 (174.100MHz)
			278.8 (215.200MHz)

**Maximum measured transmitter power:**

EIRP = ERP x1.64 (mW)		Threshold for no SAR evaluation on selected frequency
$0.064 \times 1.64 = 0.105$	(174.100MHz)	344.6 (174.100MHz)
$0.135 \times 1.64 = 0.221$	(215.200MHz)	278.8 (215.200MHz)

**Conclusion:**

**No SAR evaluation required since maximum Transmitter Pout (EIRP) is below FCC threshold.**
