

Antenna Spec

1. Frequency: 2.4Ghz

2. Antenna Type:Wiggle antenna. We have radiation polar plot data for

Wiggle antenna.

The type of antenna is customer's choice

3. Antenna peak gain: The maximum antenna gain is 0 dBi(with respect to isotropic antenna) in the best orientation.

4. VSWR: The antenna will have better than 1.5:1 VSWR over the operating frequency range

5. Polarization:

6. Impedance: (50) Ohms

7. Antenna Type:PCB Antenna
