Subject: Re : TCB Review Comments for (C06-0607a- H41KB27RF004- Lite On 27MKeyboard)

Dear Steve:

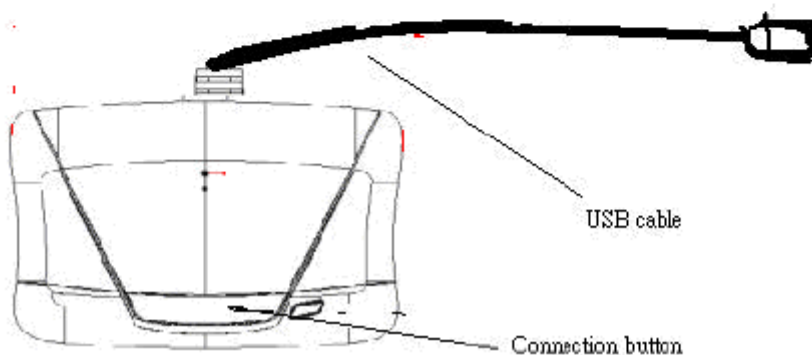

I had upload the modified documents to server. Please find them. Thank you.
About the question 2, I upload two bandege plots to server for keyboard and mouse.
And the question 1, do you mean the 2th drawing on page 4 in the user's manual? That is receiver.

The client was added a note on page 4 in user's manual as follows:

Keyboard:

Receiver:

主旨 TCB Review Comments for (C06-0607a- H4IKB27RF004- Lite On
27M Keyboard)

[TCB Review Comments for \(C06-0607a- H4IKB27RF004- Lite On 27M Keyboard\)](#)

-EMC-

Question #1: User manual show a USB cable connected to the keyboard, please explain what is this cable for? Will this cable be connecting to PC? If yes, than this device will be considered as a PC peripheral too and its Part 15B portion needs to have DoC or Certification too.

Question #2: Band edge test did not be conducted in a correct way. Please retest the transmitter with channel set to lowest channel for low band edge and channel set to highest channel for high band edge. Thanks.

Best regards,

[Steve Cheng](#)
