

Modular Approval Request Letter

TOPCON CORPORATION's FC200-NJT-499 with FCC ID: H5P-FC200NJT499, would like to have your authorization as a modular approval specific to PDA. The requirements of Public Notice DA00-1407 have been met and shown on the following statements.

1. "Have its own RF shielding" Device is equipped with Metal shielding to cover RF section. Please refer the external photos.
2. "Have buffered modulation/data inputs (if such inputs are provided)". All inputs to the modules are buffered through logic IC inputs.
3. "The modular transmitter must have its own power supply regulation." The on-board regulator supplies 1.8V DC and 2.8V DC to Radio portion except for the EEPROM memory and the USB interface block . Please refer the block diagram.
4. "The modular transmitter must comply with the antenna requirements of section 15.203 and 15.204(C)." The EUT meets the FCC antenna requirements. The spurious emission and soldered antenna structure meet the requirements.
5. "The modular transmitter must be tested in a stand-alone configuration" The EUT, FC200-NJT-499, is tested in full system configuration. Please see section Photographs of Test Configuration in the test report.
6. "The modular transmitter must be labeled with its own FCC number." Yes. Please see the exhibition, Label sample. In addition, this device is installed only by manufacturer(s).
7. "The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements." The EUT is compliant with all applicable FCC rules. The instructions for maintaining compliance are given in the Users Manual.
8. "The modular transmitter must comply with any applicable RF exposure requirements." The EUT meets RF exposure requirements, SAR test was performed within the specific host device.
