Re: FCC ID: H78KPMT2W

Attestation Statement per 90.203(e) and (g)

Programming of transceiver frequencies can only be performed by the manufacturer or authorized service and maintenance personnel. The radio output power is fixed and can't be changed. In addition, there is no RF connector – just integrated internal antenna.

Sincerely,

Liad Kenig

VP, KP Electronic Systems, Ltd.

A handwritten signature in black ink that reads 'Liad Kenig' followed by a checkmark.
