

Federal Communication Commission

Attestation Statement per 90.203(e) and (g)

Programming of transceiver frequencies can only be performed by the manufacturer or authorized service and maintenance personnel. The radio output power is fixed and can't be changed. In addition, there is no RF connector – just integrated internal antenna.

Sincerely,

Yoram Kenig

A handwritten signature in black ink that reads 'Yoram Kenig'. The signature is written in a cursive style and is positioned above a horizontal line.
