

## Remote Control Manual

Model: 131230A0001 131230A0003

It's a remote control with a Radio Frequency function for Audio Door device. The remote control's working voltage is 3.0V, its working current is less than 25mA when in operation. And it has three frequencies for 433.92MHz.

This remote control has 12 keys, the remote control has 1 red LED. It is used to feedback the RF transmission and other RCU functions to the user.

And the remote control's electronic parameters are as follows:

1. Modulation: ASK
2. Frequency Range: 433.92MHz
3. Working Current: <25.0mA
4. Ambient Temperature: -10—70°C
5. Battery: AAA\*2PCS battery,3.0V,

# Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

## **IMPORTANT NOTE:**

### **FCC Radiation Exposure Statement:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
