

Modular Approval Request Letter

October 11, 2006

Compliance Certification Services
561F Monterey Rd.,
Morgan Hill, CA 95037, USA

To Whom It May Concern:

Please be advised that Bluetooth module, with the FCC ID: H79DFBM-CE320 would be certified as the Modular Approval with the Mobile device classification. User shall be informed that keeping at least 20cm safe separation away the device. We also assure the device complies with the requirements listed in the Public Notice DA-00-1407, details are listed as follows:

1. The modular transmitter must have its own RF shielding:

Reply: The radio portion of this module has been shielded, please see exhibition External Photo.

2. The modular transmitter must have buffered modulation / data inputs:

Reply: The EUT has buffered data inputs, it is integrated in chip.

3. The modular transmitter must have its own power supply regulation:

Reply: The chips IF converter and RF/IF converter which will influence the frequency radiation, are powered through internal power regulator which is a built-in device in the chip U1/Model: BC417143B. Please refer to attached RF chip spec and BOM for details.

4. The modular transmitter must comply with the antenna requirements of the Section 15.203 and 15.204(c):

Reply: The EUT meets the FCC antenna requirements. The spurious emission, PCB antenna Antenna and photo of antennas are shown in the test report.

5. The modular transmitter must be tested in a stand-alone configuration:

Reply: The EUT was tested in a stand-alone configuration via control board.

Please see section Photographs of Test Configuration in the test report, the EUT was plugged in this extender.

6. The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device must also display the FCC ID referring to the enclosed module.

Reply: Please see exhibition Label Sample for the FCC ID of this module. And also please refer to the exhibition Users Manual, there are instructions given to the OEM on how to label the end product.

7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements:

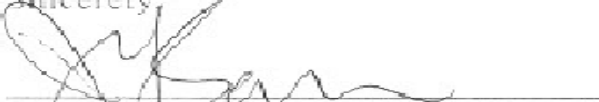

Reply: The EUT is compliant with all applicable FCC rules. Detail instructions for maintaining compliance are given in the Users Manual.

8. The modular transmitter must comply with any applicable RF exposure requirements:

Reply: Complied RF Exposure is addressed in the RF exposure exhibition.

Should you have any question, please don't hesitate to ask us.

Sincerely,

Sam Jen / Sr. Technical Manager
