Attention: Certification reviewer
RE: Request for Confidentiality
FCC ID: H8N-SDM8821

To Whom It May Concern:

Short-term Confidentiality [Complete this section if short-term confidentiality is requested]

Request to withhold from public review for a period of 180 days from the date of the Grant of Equipment Authorization and prior to marketing, certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept short-term confidential for a period above from the date of the grant

[Select one or more of items below that are **not** selected in the list above, as appropriate]

- Schematics
- Block diagrams
- Operational Description
- Tune-up Procedure
- Parts List
- Test Setup Photos
- External Photos
- Internal Photos
- Users Manual

Rationale for request for confidentiality:

We have invested considerable time and materials in research and development to produce the referenced product.

Short-term confidentiality: Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investment in research and development.

We are aware that this product had been granted on March 14th, 2021 and the documents already disclosed on FCC website. However, based on the above rationale, we now require a 180-day short-term confidentiality for the above-mentioned documents.

If you have questions or need further information, please contact the undersigned.

Sincerely,
