

## FCC Declaration of Conformance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Operations in the 5.15-5.25GHz band are restricted to indoor usage only.

## FCC RF Radiation Exposure Statement (SAR)

This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 24 centimeters between the transmitter and your body.

## Safety Warnings

### Caution

Ensure to connect the power cord of power adapter to a socket-outlet with grounding connection.

If any parts of your device, power adapters or any cables appear damaged, discontinue use immediately.

Do not try to open your devices or power adapters. There are no serviceable parts and you risk an electrical shock.

### Adapter

Do not use any other power adapter except the one that accompanies this unit or a power adapter identified in the list below. Use of another adapter could result in damage to the unit.

The adapter should only be operated from the type of power source indicated on the adapter's label.

**Power Supply DC: 12V /2.5A**

## Safety and Compliance

### Read before Use

We recommend you read the following sections thoroughly before use. AT&T is not liable for malfunctions or damages resulting from misuse of the handset.

### Safety Precaution

Please observe the following safety precautions.

Use the chargers, cables or accessories approved by the device manufacturer.

Do NOT disassemble or modify the device. Doing so voids the warranty.

Prevent wetness from penetrating internal parts. Using the device in wet or damp environment (for instance, charging it in a wet environment like bathtub or bathroom) may result in malfunctions.

Do NOT use this device near source of heat or fire, such as oven, microwave, stove, or heater.

Keep your device away from cooking appliances.

Do NOT place the device in places with heated atmosphere (dryer, sauna, hot water).

Do NOT use the device and disconnect all cables at places with fire or explosion risks.

Avoid strong physical impact (heavy objects or excessive force).

Keep your device away from liquid or conductive materials.

Do NOT power the device when either the device, the adapter, or the cable is wet. It may cause short-circuit.

Power off the device when near medical equipment or high-precision control systems to avoid potential interference.

Charge with specified voltage only.

Place the device on a flat, stable surface for optimal use.  
Keep the device and adapter away from children and pets.  
The device must be disposed of in accordance with the locally applicable, environmental regulations.  
Keep the device away from magnetic items such as magnetic strip cards or items that generate strong electronic or magnetic fields, such as a microwave.  
Do NOT store the device in an overheated environment.  
Do NOT use the device when it is overheated.  
Disconnect all the cable connections when the device is not in use.  
Place the device in places with good signal strength.  
Make sure the adapter you use with the device meets the approved standards and specifications.

## Maintenance & Care

Avoid extreme temperature or direct sunlight  
Clean router with soft, dry cloth. Do NOT use alcohol solvent (color may fade)  
Warranty does not cover malfunctions caused by misuse.  
Stop all the applications and shut down the device before cleaning it.  
Keep the device and its accessories dry at all times.  
If anomaly occurs, contact AT&T Support immediately.  
When storing the device, do NOT store it in a container with dampness or under extended heat.  
Avoid dropping the device or strong physical impact at all times.

The Wi-Fi Logo is a certification mark of the Wi-Fi Alliance.

### Changes

The functions of the product and associated peripherals or accessories are described in this document are based on the current hardware, software and/or local network conditions at the time of writing, and thus may vary due to conditions set by local network service providers or carriers. Therefore, all information described herein is subject to change without prior notice.

## Professional installation instruction

### 1. Installation personal

This product is designed for specific application and needs to be installed by a qualified person who has RF and related rule knowledge. The general user shall not attempt to install or change the setting.

### 2. Installation location

The product shall be installed at a location where the radiating antenna can be kept 24cm from nearby person in normal operation condition to meet regulatory RF exposure requirement.

### 3. External antenna

Use only the antennas which have been approved by the applicant. The non-approved antenna(s) may produce unwanted spurious or excessive RF transmitting power which may lead to the violation of FCC limit and is prohibited.

### 4. Installation procedure

Please refer to user's manual for the detail.

### 5. Warning

Please carefully select the installation position and make sure that the final output power does not exceed the limit set force in relevant rules. The violation of the rule could lead to serious federal penalty.
