1. Question #4: These portable PCMCIA cards are generally handled as stand alone devices. Modular approval is not applicable. Since the device will be approved as a two-host-specific product, please submit radiated spurious emissions for the second host laptop.

<Response>

New radiated tests data using both host with the card in typical user configuration (not on extension card) uploaded in files:

" CRN 24837 RADIATED SPUR IBM HOST.pdf"

" CRN 24837 RADIATED SPUR TOSHIBA HOST.pdf"

2. Question #7b: Please submit scans of the entire laptop.

<Response>

Please refer to uploaded file "CRN 24837 Q7b.pdf"

3. User manual should list specific host computers.

<Response>

User manual revised and uploaded in the file "CRN 24837 Revised Users Manual.PDF"

Thanks.
