January 11, 2003

RE:

FCC ID:

I have a few comments on this Application.

- 1.) This device is a 2.4GHz/5GHz Mini – PCI Card for general use and installation by OEM integrators in final products. Therefore, this device qualifies under the Modular Approval rules. Please upload Modular Approvals request letter.
- 2.) It is unclear if this device will be bundled into specific equipment exclusively or not. If only Wireless ADSL/Wireless Router/Wireless Cable Modems are to be used, then a Limited Modular Approval (LMA) would apply
- 3.) No instructions are given in the Manual for how OEM integrators should make the antenna “integral”. Please revise manual accordingly.

William H. Graff
President and Examining Engineer
