**Evaluation of Symbol 4121CDMA
FCC id: H9P4121CDMA**

I have assessed the above referenced submission for the Symbol 4121CDMA mobile computer and found it to be compliant.

The following were noted and resolved during the evaluation.

- 1: The applicant incorrectly stated the EAC for the CDMA radio as TNB. This has been amended to PCT.
- 2: There was no description of the belt clip accessory in the user manual. A drawing was supplied by the applicant which confirmed that there was no metal in the construction which could affect SAR testing.

Yours sincerely
