ASTERIX III - ANTENNA

These are the latest radiation patterns of the first samples of production antennas. An optimization has been performed, and the antenna exhibits better performance than the latest patterns you received on APRIL 11, 1999

Summary / Conformance to the original symbol spec
Antenna in Asterix,

main position, V-pol:
(coverage in degrees for 3 pattern cuts)

-2dbi has 170° coverage

-6dbi has 320° coverage

Asterix in dispenser:

-2dbi has 120° coverage

-6dbi has 190° coverage

Asterix in dispenser,
with metal ground
plane behind disp.

-6dbi has 150° coverage

I intend to run a full performance test with the final production antenna (produced by factory) and final plastics of the Asterix.
Regards: Quadia
