

Symbol Technologies, Inc.

Date: May 12, 2009

Federal Communications Commission
Authorization and Evaluation Division

FCC ID : H9PFR6070/ H9PFR6074/ H9PFR6076/ H9PFR6874/ H9PFR6876

Subject: Non-routine Label Proposals

We, Symbol Technologies, Inc., would like to apply for non-routine label proposals. Due to limited spaces of the product, we decide to label the FCC logo outside the battery door. Therefore, the FCC identifier and label will be readily viewable and satisfied for FCC Rule 2.925 (d).

The label is visible to the users as they purchase the products and install the battery. Besides, the label is made of good quality and water proof materials which users cannot be easily get rid of. The mobile computer cannot operate properly when battery door remove. It is because there had a power switch on the battery door.

Should you have any questions, please have my best attention.

Sincerely,
