RE: Letter of Changes – Class II Permissive Change
FCC ID: H9PLA3021-100

The change being requested under the original application for the Symbol LA-3021-100-US radio is the addition of the Folded F antenna from Maxrad. The Maxrad part number is Z1370 with the following specifications;

Frequency range 2.4 – 2.485 GHz

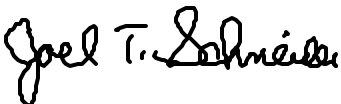

Gain 3 dBi

The following picture shows the placement of the Folded F antenna on the enclosure

This module is permanently mounted on the outside of the truck and away from the driver or other occupants.

Sincerely,

Joel T. Schneider
