Dear Hilton

**Application for a Class II Permissive change - FCC / TCB - Symbol Technologies Inc.  
2.4GHz WLAN module FCC id: H9PLA4137**

Please find enclosed a BABT Form 736 and one set of zipped files on behalf of Symbol Technologies Inc.

The application is for a Class II Permissive change to the Grant issued under FCC id H9PLA4137 for the Symbol 2.4Ghz WLAN module. It is to allow for the addition of the Symbol PS3050 host.

The PS3050 Terminal is a hand held terminal for use with the Symbol Portable Shopping System. The terminal allows shoppers to scan and tally purchases as they select goods from the shelves. On completion, the shopper proceeds to a dedicated checkout, thus eliminating the need to unpack and repack the shopping trolley to pay for the goods.

A confidentiality letter and an authorisation letter from Symbol are included.

This application is part of a wider compliance project – NC6611509. Please do not invoice Symbol directly.

Yours sincerely

Phil Dolling  
Compliance Manager
