

Label Location and Diagram

We, Symbol Technologies Inc., state that our device, FCC ID: H9PMC5574, has no space to put the label except in the battery compartment as shown in the attached photo. The label will put within the battery compartment, so the label is visible to the users as they purchase the products and install the battery. Note that any remaining label space on the exterior of the product is reserved for safety warnings for the embedded laser scanners, and for other safety information that is required to help ensure the end user’s continued safety.

Sincerely,

David C. Heald
Symbol Technologies Inc.
