

**Below is the photo comparison between old and new antenna.**

Old antenna mean the antenna used on 10/14/2005 origin filing

New antenna mean the antenna used on 10/28/2005 revise test reports for superseding 10/14/2005 submitted test reports.

A better in-band power performance has been achieved by length tuning as show below and accordingly the conducted power and radiated spurious emissions have been re-measured to demonstrate the continue compliance to the related rule parts.
