

Description Of Differences

Symbol Technologies is inserting the Novatel Wireless Technologies Inc. FCC Part 22 approved CDPD (Cellular Digital Packet Data) radio module (FCC ID:NBZNRM-6832) into the Symbol PPT2700 hand held computer terminal. The new product will be known as the PPT2733 Stealth WAN terminal with CDPD radio.

Symbol is applying for a new FCC ID Number H9PPPT2733.

The CDPD module itself is being used with no changes at all from the Novatel Wireless Inc. FCC Part 22 approved unit. The only difference is the cable from module to the antenna and the antenna itself. The antenna is a (Symbol Part number, 10-38336-03) +0, -2 dB gain antenna described in more detail in the antenna exhibit.
