 Request for Tech. Info.: 7/26/02**

Dear Joe:

Transmitted herewith, on behalf of **Symbol Technologies Inc.** is an amendment provided in response to the request for technical information dated July 26, 2002.

1. We would like to confirm that the calibration certificate was inadvertently submitted. Furthermore, we would like to confirm that the Probe SN 1677 was used to perform the SAR test.
2. Please find attached the Probe SN 1677 Calibration Certificate.
3. Symbol would like to confirm that the tune-up procedure that was submitted is correct, it was obtained directly from Motorola. This is the original tune-up procedure exhibit that Motorola submitted and was accepted. Please find attached Motorola's original letter of Confidentiality request, which shows IHDT6AC1 as the FCC ID for the GSM module.
4. Please find attached the operational description.
5. We would like to confirm the correct EIRP value is 1.0W, please find attached the revised Test Report pages.
6. Please find attached the revised SAR Test Data and Report.
7. Please find attached revised users manual that indicates the probe spacing for body worn operation at 2.5cm.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.
