

## TLA TRAILER MONITORING UNIT (TMU) Regulatory Guide

### Regulatory Information

This device is approved under Symbol Technologies, Inc.  
This guide applies to Model Number: TM1000

All Symbol devices are designed to be compliant with rules and regulations in locations they are sold and will be labeled as required.

Any changes or modifications to Symbol equipment, not expressly approved by Symbol, could void the user's authority to operate the equipment.

**CAUTION** Only use Symbol approved and UL Listed accessories.  
Declared maximum operating temperature: 50°C.

### Wireless Device Country Approvals

Regulatory markings, subject to certification, are applied to the device signifying the radio(s) are approved for use in the following countries: United States.

Operation of the device without regulatory approval is illegal.

### Frequency of Operation - FCC

2.4 GHz Only. The available channels for 802.11 b/g operation in the US are Channels 1 to 11. The range of channels is limited by firmware.

#### Warning for Use of Wireless Devices

Please observe all warning notices with regard to the usage of wireless devices.

#### RF Exposure Guidelines

### Safety Information

#### Reducing RF Exposure - Use Properly

Only operate the device in accordance with the instructions supplied.

#### **International**

For further information on the safety of RF energy from wireless devices, go to:  
<http://responsibility.motorolasolutions.com/index.php/downloads/>.  
Located under Wireless Communications and Health.

#### **US**

Co-located statement. To comply with FCC RF exposure compliance requirement, the antenna used for this transmitter must not be co-located or operating in conjunction with any other transmitter/antenna except those already approved in this filing.

To satisfy US RF exposure requirements, a transmitting device must operate with a minimum separation distance of 20 cm or more from a person's body. The minimum separation distance 20 cm must match the distance established in the SAR Test report.

#### Laser Devices

Class 1 Laser devices are not considered to be hazardous when used for their intended purpose.  
For Class 1 devices replace the label with the following label as appropriate.

**symbol**<sup>®</sup>

**Laser Warning Label-Class 1**  
(No Color Requirement)

- Class 1 Laser Product  
- COMPLIES WITH 21CFR1040.10 AND 1040.11 EXCEPT FOR DEVIATIONS PURSUANT TO LASER NOTICE NO. 50, DATED JUNE 24, 2007 AND IEC 60825-1:2007 (Ed. 2.0); EN 60825-1:2007.  
Caution - Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

**Radio Frequency Interference Requirements - FCC**

**NOTE** This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

**Radio Transmitters (Part 15)**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Service**

If you have a problem using the equipment, contact your facility's Technical or Systems Support. If there is a problem with the equipment, they will contact the Global Customer Support Center at:  
<http://www.motorolasolutions.com/support>  
For detailed documentation and the latest version of this guide go to:
