

Hydra (WSAP-5030 & WSM-5030)

and

FCC statements

Reference FCC Rule 15.19 (a) (5)

FCC ID: H9PWSAP5030.

The WSAP-5030 is a Wireless LAN (Local Area Network) offering dual mode IEEE 802.11b and IEEE 802.11a Technologies operating at 2.4 and 5GHZ frequency bands.

Given the complexity of this product and requirement to operate continuously at relatively high temperatures, the face available for Regulatory Markings and Manufacturing Information is severely restricted, as we required a maximum amount of surface area for heat sinking.

With regard the required FCC statements, given the situation described above, we have placed the required statements into the product User Guide.

The product will exhibit the FCC Logo and the FCC ID: H9PWSAP5030.

FCC ID: H9PWSM5030.

The WSM-5030 is a Module for use with the WSAP-5030 delivering the IEEE 802.11b Technology part operating at 2.4GHz.

Given size of this plug in module the space available for Regulatory Markings and Manufacturing Information is severely restricted.

With regard the required FCC statements, given the situation described above, we have placed the required statements into the product User Guide.

The product will exhibit the FCC Logo and the FCC ID: H9PWSM5030.

I trust the information I have provided will enable an FCC Grant to be obtained.

Signed for Symbol Technologies Inc.
