FCC Warning

The device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device may accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this device, approved by the manufacturer, are necessary to ensure compliance with these conditions.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment. This equipment generates, uses and can radiate radio frequency energy and, if not properly shielded, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. This equipment does contain radio frequency energy and, if not properly shielded, it may cause harmful interference to radio communications. This equipment can be repaired by a qualified technician or user, if the user is knowledgeable to remove the interference by use of shielded enclosure.

Caution: To avoid fire or explosion, do not use this equipment near flammable or explosive atmospheres.

Caution: To avoid fire or explosion, do not use this equipment near flammable or explosive atmospheres.

Caution: To avoid fire or explosion, do not use this equipment near flammable or explosive atmospheres.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable operation condition without restrictions.
