

IMPORTANT SAFETY INSTRUCTIONS

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the points where they exit from the apparatus.
- Only use attachment/accessories specified by the manufacturer.
- Use only the cart, stand, tripod, bracket or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- Upright this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- Power Sources - This product should be connected to a power supply only of the type described in these operating instructions, or as marked on the unit.

IMPORTANT SAFETY INSTRUCTIONS

- Water and Moisture - This product should be kept away from direct contact with liquids. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
- CAUTION - Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type Batteries (a battery pack or an installed battery) shall not be exposed to excessive heat such as sunlight, fire, etc.
- When the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
- This symbol means the equipment is a Class II or double-insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.
- Do not install this equipment in a confined or "boxed-in" space such as a bookcase or similar unit, and maintain good ventilation conditions. The ventilation should not be impeded by covering the ventilation openings with items such as newspaper, tablecloth, curtains, etc.
- This apparatus is for professional use only.
- When moving or not using the appliance, secure the power cord (e.g., wrap it with a cable tie). Be careful not to damage the power cord. Before using it again, make sure the power cord has not been damaged. If the power cord has been damaged at all, bring the unit and cord to a qualified service technician for repair or replacement as specified by the manufacturer.
- WARNING: Please refer to any important information (e.g., electrical safety, etc.) printed on the exterior side enclosure before installing or operating the product.
- Rating Label is located at the bottom of the product.

SERVICE INSTRUCTIONS

- Disconnect power cord before servicing.
- Replace critical components **only** with factory parts or recommended equivalents.
- For AC line powered units - Before returning repaired unit to user, use an ohmmeter to measure from both AC plug blades to exposed metal parts. The resistance should be more than 2,000,000 ohms.

SAFETY NOTICES

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE ANY COVER. NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL ONLY.

DANGEROUS VOLTAGE: triangle is intended to alert the user to the presence of un-insulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

WARNING: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The use of apparatus in moderate climates. No naked flame sources, such as lighted candles, should be placed on the apparatus. Minimum distances 5cm around the apparatus for sufficient ventilation. To preserve our environment, dispose of used batteries according to your local laws or regulations.

INSTRUCCIONES IMPORTANTES DE SEGURIDAD

- Lea estas instrucciones.
- Conserve estas instrucciones.
- Preste atención a las advertencias.
- Agua y humedad - Este producto se debe mantener fuera del contacto directo con los líquidos. El aparato no debe ser expuesto al goteo o a la salpicadura y ningún objeto lleno de líquidos, como serían los floreros, debe ser colocados cerca del aparato.
- No bloquee las aberturas de ventilación. Instale el equipo de acuerdo con las instrucciones del fabricante.
- No instale el equipo cerca de fuentes de calor tales como radiadores, aberturas de entrada de calefacción, calefactores u otros aparatos (incluidos amplificadores) que generen calor.
- No anule la función de seguridad del enchufe tipo polarizado o con conexión a tierra. Un enchufe polarizado tiene dos patillas, una más ancha que la otra. Un enchufe de tipo de conexión a tierra tiene dos patillas y una clavija de puesta a tierra. La patilla ancha o la tercera clavija son para su seguridad. Si el enchufe provisto no entra en su tomacorriente, consulte a un electricista y solicítele el reemplazo del tomacorriente obsoleto.
- Proteja el cable de alimentación de modo que no lo pisen ni quede estrangulado, particularmente en los enchufes, tomacorrientes y el punto donde sale del equipo.
- Use sólo agregados y accesorios especificados por el fabricante. Debe conectarse a un tomacorriente del suministro eléctrico con una conexión a tierra de protección.
- Use sólo el carrito, soporte, trípode, mensula o mesa especificados por el fabricante o vendidos con el equipo. Si usa un carrito, tenga cuidado al mover la combinación de carrito/equipo para evitar que se vuelque y produzca lesiones.
- Desenchufe este equipo durante las tormentas eléctricas o cuando no lo use por períodos prolongados.
- Solicite todo servicio a personal de servicio calificado. Se requiere servicio cuando el equipo se dañó de cualquier manera, por ejemplo si se dañaron el cable o el enchufe de alimentación, si se derramó líquido o cayeron objetos dentro del equipo, si el mismo estuvo expuesto a la lluvia o la humedad, si no funciona normalmente o se dejó caer.

INSTRUCCIONES IMPORTANTES DE SEGURIDAD

- Suministro eléctrico - Conecte este producto solamente a un suministro eléctrico del tipo que se describe en estas instrucciones de operación o según se indique en la unidad.
- Agua y humedad - Este producto se debe mantener fuera del contacto directo con los líquidos. El aparato no debe ser expuesto al goteo o a la salpicadura y ningún objeto lleno de líquidos, como serían los floreros, debe ser colocados cerca del aparato.
- PRECAUCIÓN - Peligro de explosión si la batería se substituye incorrectamente. Substituir solamente por el mismo o el tipo equivalente. Las baterías (un bloque de baterías o una batería instalada) no se deben exponer a calor excesivo, tal como la luz solar, el fuego, etc.
- Cuando se usa el enchufe del suministro eléctrico o el acoplador de un artefacto como dispositivo de desconexión, el mismo debe permanecer fijo a operar.
- Este símbolo significa que el equipo es un artefacto eléctrico Clase II o de doble aislamiento. Está diseñado de manera tal que no requiere una conexión de seguridad a la tierra eléctrica.
- No instale este equipo en un espacio confinado o "dentro de una caja" tal como una librería o una unidad similar, y mantenga buenas condiciones de iluminación. No debe impedirse la ventilación cubriendo las aberturas correspondientes con elementos tales como periódicos, manteles, cortinas, etc.
- Este aparato es para uso profesional únicamente.
- Cuando traspade o no use el artefacto, sujete el cable de alimentación (por ejemplo, envuélvalo con un precinto). Tenga cuidado de no dañar el cable de alimentación. Antes de usarlo nuevamente, asegúrese de que el cable de alimentación no está dañado. Si dicho cable presenta algún daño, lleve la unidad y el cable a un técnico de servicio calificado para reparación o reemplazo según lo especifique el fabricante.
- ADVERTENCIA - Antes de instalar u operar el producto, consulte toda la información importante (como la relativa a electricidad, seguridad, etc.) impresa en la envuelta inferior exterior o el panel trasero.

LAS INSTRUCCIONES DE SERVICIO

- Desconecte el cable eléctrico antes de empezar el servicio.
- Substituya los componentes críticos **solamente** por las piezas de la fábrica o las piezas equivalentes recomendadas.
- Para las unidades accionadas por CA - Antes de devolver la unidad reparada al usuario, utilice un ohmímetro para medir entre las dos láminas del enchufe de CA y todas las partes expuestas. La resistencia tiene que ser más de 2,000,000 ohms.

SEÑALES DE ADVERTENCIA

PRECAUCIÓN: PARA REDUCIR EL RIESGO DE DESCARGA ELÉCTRICA NO QUITE NINGÚN TAPADERO, DENTRO DE LA UNIDAD NO HAY COMPONENTES ÚTILES PARA EL UTILIZADOR. PARA EL SERVICIO SE DEBE DIRIGIRSE SOLAMENTE AL PERSONAL DE SERVICIO CUALIFICADO.

VOLTAJE PELIGROSO NO AISLADO: La señal de relámpago con la punta de la flecha dentro del triángulo equilátero está puesto para alertar al usuario de la presencia del "voltaje peligroso no aislado" dentro del recinto de producto que puede tener la magnitud suficiente de corer un riesgo de descarga eléctrica.

ATTENTION: Pour réduire le risque de feu et du choc électrique, ne pas exposer cet appareil aux pluies ou à l'humidité. L'usage de cet appareil sous un climat tempéré, défiez de source des flammes non protégées, parexemple, des bougies allumées doivent être placées sur cet appareil. S'cm de distance au minimum autour de cet appareil pour la ventilation suffisante, pour protéger notre environnement, le disposition de batteries usées conformément à la loi locale ou aux réglementations.

The Fine Print

USER MANUAL INSERTS FOR FCC ID

- Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - this device may not cause harmful interference, and
 - this device must accept any interference received, including interference that may cause undesired operation.
- RF Exposure Statement
To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm (the radiator) your body. Use only the supplied antenna.

Give us a call!

Charging

Insert the included power cable to charge the unit.

Notes: The unit can be used with the power cable while it simultaneously charges the battery. When four charging indicators light up, indicates that the battery is fully charged.

Charge fully before storing a battery which has not been in use for a long period. Store the speaker in a cool, dry place.

You must charge the battery once a month to maintain battery performance. If the battery is stored for a long period without being charged, its battery life may be shortened.

Bluetooth pairing

- Hold **Power** to power on the product.
- The Bluetooth icon in the display will start blinking rapidly.
- Active the Bluetooth function on your device and search Bluetooth devices, and select "onn. Party SPK MD" to start connecting.
- Once paired, you will hear "Bluetooth Connected".

During music play:

- Turn the right Master volume knob to adjust volume.
- Press **>||** to pause or resume music play.
- Press **<>** to skip to the previous/next song.

Wireless Stereo Pairing

- Short press "**>||**" of either speaker to enter True Wireless Stereo Pairing mode, the LINK icon on the display will start blinking rapidly.
- When the two speakers connected, LINK icon will turn on steadily.
- Long press "**>||**" to disconnect True Wireless Stereo mode.

Aux Connection

Notes:

- Use a 3.5mm cable (not included) to connect the speaker to another audio source.
- In AUX mode, **>||** can't be controlled.

FM

- Press **FM** to the FM mode.
- Press **<>** repeatedly to tune to a station step by step.
- Hold **<>** to tune to a station automatically.
- Use the Master volume knob to adjust volume.

Connecting Microphone

- Connect your Microphone(not included) or Guitar(not included) to the MIC/Guitar socket.
- Play Guitar through the speaker.
- Sing along with the Microphone when music played on Bluetooth/Aux/FM mode.

USB Charging/Control the light

- Connect your device's charging cable through the 5V 1A charging socket to charge it. USB charging only functions when the unit's power is turned on.
- Notes: To charge smartphones and tablets faster, put the device's screen to sleep.

- Hold to **Light** turn on / turn off the light mode.
- Short press **Light** repeatedly to select 5 available display modes.

We'd love to hear from you. Scan with your Walmart app and let us know what you think.
