Safety Precautions and Maintenance

Please read these operating and maintenance (servicing) instructions before installing and operating your speakers.

⚠️ **Warning**: To reduce the risk of the fire or electric shock, do not expose this speaker system to rain or moisture (including swimming pools or objects filled with liquids, such as vases or drinks).

Important Safety Instructions

1. Always read Safety and Operation instructions before use. Retain instructions for later reference.
2. For indoor use only. Do not expose the speaker to liquid, moisture or humidity.
3. Do not use abrasive cleaners to clean the speaker case as they may damage the finish. Always unplug the unit before cleaning.
4. Do not expose the speaker to extremely high or low temperatures.
5. Keep the unit away from direct sunlight.
6. Use only accessories and attachments as supplied and designated in the instruction manual.
7. Do not attempt to open or modify the speaker in any way, as it does not contain user any serviceable parts. Please refer all servicing to qualified personnel.
8. Please store the unit in a dry place that is free from extreme temperatures and dust.
9. Always operate the speaker on a flat and level surface.
10. Always operate the speaker unity from children and animals who may play with the power cords and other small parts.
11. Always dispose of the packaging and the unit in accordance with the local regulations and in a responsible manner.

The FCC Wants You To Know

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
