To whom it may concern,

We would like to submit for a C2PC to update and place the referenced FCC ID HBW0635 into 4 new model numbers, JHDC22X1BMC, JHDC22X4BMC, TDC22X1BMC and TDC22X4BMC. The only differences between these 4 model numbers and the previous model numbers above, approved to HBW0635, are a new DC motor and a new toroid transformer.

All of the radios (low band RX, sub-gig, wifi/BLE) are unchanged. The output power, chipsets and all PCB components, and the firmware associated with all radios are identical with no changes or revisions.

Please find in the following application all related documentation to support this Class 2 Permissive Change.

We would appreciate your prompt attention to the submittal.
