Requirement	<p>All part 15 applications will need to show how the antenna gain was derived either from a manufacturer data sheet or a measurement.</p> <p>Where the gain of the antenna is inherently accounted for as a result of the measurement, such as field strength measurements on a part 15.249 or 15.231 device, so the gain does not necessarily need to be verified. However, enough information regarding the construction of the antenna shall be provided. Such information maybe photographs, length of wire antenna etc.</p> <p>The antenna gain information shall be made public (not confidential). Any proprietary information such as construction maybe stripped from the gain information report and held confidential. The main antenna information we require is the maximum gain of the antenna for the band of operation.</p> <p>This information must be provided as a data sheet or a measurement report.</p>

8 inch 18 gauge dipole wire antenna.
