Re: Request for Certification

Enclosed is an application and exhibits for Certification of a Remote Control Transmitter Model 953EV. Circuit board assembly 1D7075 -1 is used in Model 953EV. The 1D7075 circuit board assembly in the test report is identical to circuit assembly 1D7075-1 except for the number of pushbuttons.

I have included a typical instruction sheet indicating the FCC statement and important information.

The FCC ID of this model, upon certification, will be HBW7192.

We would appreciate your prompt attention to the submittal.

Sincerely,
THE CHAMBERLAIN GROUP, INC.

A handwritten signature in black ink that reads "Barbara P. Kelkhoff".

Barbara Kelkhoff

LIST OF EXHIBITS
REMOTE CONTROL TRANSMITTER
Model 1D7075-1 (953EV)

1. Expository Statement
2. Theory of Operation
3. Schematic
4. Photographs
5. FCC Label Drawing
6. Operating Instructions
7. Test Report

EXPOSITORY STATEMENT
REMOTE CONTROL TRANSMITTER
Model 953EV (1D7075-1)

1. The instructions include statements required to assure compliance with the Commission's Rules; Part 15.
2. Labeling is in accordance with the Commission's labeling requirements, Parts 2 and 15, Section 15.19.
3. This transmitter is intended for use with the certified receivers of garage door and gate operator systems manufactured by Chamberlain®.
4. The transmitter is equipped with an automatically releasing push-button switch. Transmission is terminated upon release of the push-button.
5. The Model 953EV transmitter is factory set to $315 \pm 0.1\%$ MHz. It is not intended to be readjusted in the field, and specific instructions prohibiting tampering are provided to the user.
6. Test data for Model 953EV is part of this submission. No emissions were detected in the forbidden bands below 1.0 GHz.
