Letter of Changes

To whom it may concern,

We would like to submit for a C2PC to update our touchscreen in FCC HBW8439. This updated touchscreen, manufactured by US Micro Products, part number USMP-T101-128080MAS-A1 replaces the current touchscreen. The primary change is the new touchscreen is capacitive. In addition, several components were added to the I/O PCB to power the touchscreen. No changes were made to the RF circuit. The touchscreen pins are different than the previous touchscreen.

We would appreciate your prompt attention to the submittal. If there are any questions, please call me at 630-993-6306 or send a fax to 630-516-6863.

Sincerely,

Barbara Kelkhoff
