Letter of Changes

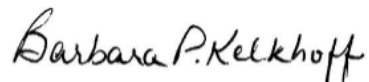

To whom it may concern,

We would like to submit for a C2PC based on the following changes for our Light Duty Commercial Dock Door Operator for Sectional Doors with DC motor logic board 001D9462-1. This new board uses the same radio circuit and Wi-Fi module as the previous original logic board 001D8551 which are represented by the identifiers above.

The radio and Wi-Fi frequencies and circuits are identical. The only change to the logic board are additional low voltage accessory inputs.

We would appreciate your prompt attention to the submittal. If there are any questions, please call me at 630-993-6306 or send a fax to 630-516-6863.

Sincerely,

Barbara Kelkhoff
