Re: Marketing and Professional Installation Required

FCC ID: **HCOT30QSCPAN1B**

Marketing: The intended use is generally for industrial/commercial use and will not be sold to the general public. It will also not be sold through retail establishments or through mail order. It will be sold to OEM customers, qualified dealers and directly to commercial customers.

Professional Installation: Since the equipment is used in the above reference FCC ID has standard RF connectors, the system must be professionally installed. The installer shall be responsible for ensuring that the proper antenna is employed so that the limits specified in Part 15.247 (b) are not exceeded. It is intended for industry/commercial use.

All the necessary instructions keeping our qualified dealers, commercial customers and professional installers clear of the necessity of professional installation are given in the product user manual. Professional installers will ensure that the equipment is installed following local regulations and safety codes.

A handwritten signature in black ink, appearing to read "Shawn Stapleton", with a long horizontal line extending to the right.
