This is to certify that Inovonics products EN5040 and EN5040-T are all built on the same PC board and operate with the same firmware. The only difference is a low voltage (120VAC Input/14VAC Output) wall transformer power supply included in the EN5040-T.

A handwritten signature in black ink, appearing to read 'Floyd Nishi', written over a horizontal line.

Floyd Nishi
Director of Mfg Engineering
