RE: FCC Application for FCC ID: HD5-CK67X1N

Subject: KDB 291074 D02v01 5.9GHz Declaration

We, Honeywell International Inc, attest that this product under FCC ID: HD5-CK67X1N complies with product protocol requirements and operational restrictions:

For Client products:

- 1) This product will not directly connect to another client product.
- 2) This product will only associate and connect with an indoor Access Point (AP) or indoor Subordinate.
- 3) This product will always be under the control of an indoor AP. However, there may exist situations where the client may transmit brief messages, prior to being under the control of an AP, to join an AP network. But these brief messages will only occur if the product has detected a signal confirming that an AP is operating on a particular channel. These brief messages will have a time-out mechanism if the product does not receive a response from an AP.

Sincerely,

Name: Cindy Jiang
