Rationale for request for confidentiality:

Sutron Corporation has invested considerable time and materials in research and development to produce the referenced product.

[*Short term confidentiality:* Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investment in research and development.]

Sutron does not request a final ruling on confidentiality at this time. We ask only that the Commission refrain from posting the above materials on its website, and defer further action pursuant to Section 0.459(d)(3), unless and until the Commission receives a properly framed request for inspection of the materials.

The fee for confidentiality has been submitted along with the fee for certification. If you have questions or need further information, please contact the undersigned.

Sincerely,
