RE: FCC ID: HDCTRC4106

Attention: Gregory M. Snyder / Brian J. Dettling

I have a few comments on this Application.

1. Please note that the operational description you have provided is for the 5GHz 4206 system. Please provide the operational description for the 2.4GHz 4106 system.
2. Please note that in your MPE calculation you used $1.1\text{mw}/\text{cm}^2$ not the $1\text{mw}/\text{cm}^2$ value specified in 1.1310. The actual calculated distance using the 1.1310 value should be 121.7cm. Please correct your calculations in the MPE. Alternately, please explain why you used the $1.1\text{mw}/\text{cm}^2$ instead of the value provided in the rules.
- 3.
