RE: FCC ID: HDCTRC6420L2_ATCB003136
Attention: Gregory M. Snyder

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the manual states the highest gain antenna for use with this device is 44.2dBi. However, the highest gain antenna which appears to have been tested is 42.5dBi. Please note that this means that only a maximum gain antenna of 42.5dBi can be used with this device. Please correct the manual to state the highest gain antenna tested. Alternately, please provide test data using an antenna of 44.3dBi gain.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
